Title: Daemonism - Volume VI

Author: Kalandry'thll

Within this volume I  
feel it vital that I go  
over a few points I  
left out of the other  
five Volumes. They  
are minor, but I do  
feel they may have  
some importance to the  
reader.

One part of  
Daemonism I have yet  
to mention at all is  
their language. Do  
they even have one?  
Indeed they do, but as  
of now it is beyond  
my knowledge as to  
what it is made up of.  
Perhaps I will bring it  
forth in future  
volumes if I ever am to  
learn of it.

Another point that  
many may be  
wandering about is the  
Daemons of the  
Guardian. (The  
Guardian is a highly  
powerful being who is  
considered a god by  
some, but is in fact,  
simply a pure source  
of evil. His  
existence is a bit of a  
cloud to most, as no one  
seems to know where  
he came from.) These  
Daemons differ from  
the ones I have spoken  
of, as they are not  
from our world  
apparently. They  
come from what is  
called the nine hells.  
Though they claim to  
have access to the

ethereal void and the Abyss as well, this has yet to be proven to me, and this I will not state it as fact yet. They do however act in much the same manner, and some of the rules of summoning to apply to them.

Demons. Demons are a form of Daemons, but are much smaller and rarely are ever seen within our world. They are believed to hold much power within them, but mostly use trickery and backstabbing as a way to get ahead. Some can be found within the city of Necropolis from time to time. It is believed that these are in league with the Guardian at the moment.

Some may wonder about the gender of a Daemon, and it is often a question asked to me by others. So here shall I answer this to the best degree that I can.

Daemons hold no true gender, but are usually more male in their appearance and their character. This is not to say they are all like this, but commonly this is how it is. Daemons hold no reproductive organs and therefore must have another way of reproducing of course.

This way is not actually a sexual act in any way whatsoever. It is said that for each sin

committed, for each  
evil done, there shall  
be a daemon created  
within the Abyss.  
Some say that there is  
a Daemon for each  
person, but as well,  
this is unproven.

I do so hope to bring to  
you much more  
information in the  
future. Know that my  
studies will not cease  
so long as I breath the  
air of this world. If  
there is an answer, I  
shall strive to find it  
so as to help further  
in the understanding  
of the Daemons.

For those of you who  
read these volumes as  
an introduction to  
Daemonism or magic,  
or simply as one more  
study, I do wish to the  
best in your quest.

Also, I wish to safety  
in your quest, as this  
is truly a dangerous  
one. Students of the  
art should never seek  
to jump into this  
subject, as it is most  
advanced within the  
arts, and you could  
end up causing more  
harm than good. Read  
this merely as a  
lesson and advise for  
your future studies in  
the art. Respect it as  
something best left  
for the well trained.

Remember always  
that truth is where  
the power lies.

Always remember  
this, no matter how  
close that Daemon's  
claws are to you.
